# **MAKE A GENUINE CONTRIBUTION WITH EASE**

---

Take off with natureOffice

# BE SO FAIR ... MAKE IT CLIMATE-NEUTRAL!

From now on, Joytex® is offering the option of having every order produced climate-neutrally.

## What do you suppose that costs?

The financial outlay for this is much less than most of us might think. For most orders, the contribution is less than 2% of the order value.

## But how does it actually work?

Our partners at Nature Office have taken a close look at our bags, printing processes, shipping routes and countries of origin. Based on these facts and figures, Nature Office then determined how many tonnes of CO<sup>2</sup> is created by, say, 1000 simple cotton bags printed on one side in one colour. This allows us to easily calculate how many trees have to be planted to compensate for this. Once you know how much CO<sup>2</sup> is bound up in a tree, you know how many trees you have to plant. It's actually pretty simple, you just have to do it.

## What can you do?

Choose one of our sponsorship projects:

### 1) Germany Plus Project

### 2) Togo Project

and let us know with your next query which climate compensation project we can offer you and your customer! As it's cheaper to support a reforestation project in Togo than in Germany, the price per tonne of CO<sup>2</sup> varies – but the effect on our climate is always the same. You'll then receive an offer from us with **'climate-neutral production with projekt X'** as an optional item. Then it's up to you to decide and order with or without **'climate-neutral production'**. Be a sport!

## You can find more information at:

[www.natureoffice.com](http://www.natureoffice.com)

## COMMUNITY MASKS AND LOOP SCARVES

The Joytex® masks and loop scarves are made of highly elastic, functional microfibre. This high-quality tricot fabric is produced (knitted) in Italy and is particularly breathable due to a knit pattern that facilitates the rapid release of moisture. What makes it special: the fabric is treated with a silver ion coating. This has an antibacterial effect and prevents the build-up of odours when worn for long periods. Our long-standing and experienced partner in the Far East finishes the fabrics with high-quality sublimation printing.

### Material - features:

- ✓ **super light microfiber**
- ✓ **highly breathable**
- ✓ **antibacterial**
- ✓ **washable up to 60 °**
- ✓ **fast drying**
- ✓ **photo-realistic sublimation print**

## COMMUNITY MASKS WITH ALLOVER-PRINT

## MULTIFUNCTIONAL LOOP SCARVES

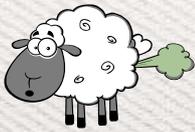

Multifunctional loop scarves made of breathable microfibre tricot fabric for a wide range of uses. Our loop scarves, which are hemmed at the top and bottom, can be printed over the entire surface with an individual, photo-realistic sublimation print.

Fair production conditions, fair on the environment and nature, fair inclusion of people with disabilities – that's the promise of our 'MADE IN HEIMAT' products. The socially inclusive sewing company Herbalind® and the Joytex® printing company are two companies from the Rhede region that have formed a joint venture to meet the growing demand for domestic products.

Whereas other bags may raise concerns about working conditions in Asia, environmental impact and long shipping routes, 'MADE IN HEIMAT' offers you peace of mind with fair conditions.

**MADE IN HEIMAT is ...**

**... good carbon footprint**

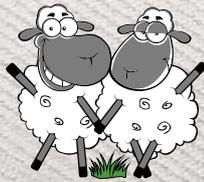

**... environmentally friendly consumption of raw materials**

**... creates jobs in Europe**

**... generates taxes in Europe**

**... just fair and social**

**MADE IN HEIMAT - features:**

- ✓ **high-quality 220g/m<sup>2</sup> cotton**
- ✓ **inclusion of people with disabilities**
- ✓ **short shipping routes, high environmental standards**
- ✓ **made entirely in Germany**
- ✓ **individually printed short runs starting from 100 pieces**

Monschau is a flat shopping bag with short handles that is completely produced in Germany. The "MADE IN HEIMAT" product is sewn in the Westphalian city Rhede by an integrative company and is printed in our own local company. It consists of 100% OEKO-TEX®-certified cotton fabric in hard-wearing top quality, which is purchased regionally - short, sustainable delivery routes. Due to the wonderful twill fabric and the 220 g/m<sup>2</sup> material, Monschau is particularly suitable as a merchandising item for those who are environmentally conscious and aware of European production. Monschau has no long transport routes and 100% local added value. The classic of the reusable promotional bags is equally suitable for all industries.

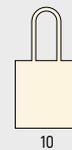

Rhede is a flat shopping bag with long handles that is completely produced in Germany. Joytex® Quality Bags has always been standing for high-quality and durability with its branded bags. The JX Collection represents the next level of quality from Joytex®, comprising an impressive range with a number of new products and established top sellers. It provides the ideal textile base for the high-quality prints from our bag screenprinting factory in Westfalia that embodies both tradition and modernity. Each bag stands out with a special product feature and all bags boast high-quality, robust materials. The target customer for the JX Collection is any advertiser who values something special – from exclusive retail and gastronomy outlets to trend-oriented players from trade and industry, as well as merchandisers and souvenir shops.

### **JX-Collection features:**

- ✓ **particularly high-quality, heavy cotton**
- ✓ **robust processing with attention to detail**
- ✓ **exclusive product features**
- ✓ **JX quality seal on every bag**
- ✓ **individually printed short runs starting from 100 pieces**

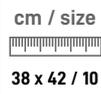

The flat Kyoto bag is made from 100% OEKO-TEX® certified cotton in a hard-wearing superior quality and comes in a jeans indigo finish. The sturdy cotton Kyoto model with its short and woven handles is perfectly suited for large shopping items. It is a good advertising medium for jeans stores and a whole range of other shops. It is also suited as a local merchandising article for souvenir shops. The blue jeans bag with its fashionable metal-eyelets can count on fans in all target groups. Coloring when wearing and dyeing when washing the bag is part of the typical character of this Indigo quality. Beware of light clothing and upholstered furniture. Only with liquid detergent cold and wash inside out.

The Sydney shopping bag has a bottom fold and is the eco-friendly alternative to plastic carrier bags. The bag is made from 100% OEKO-TEX® certified cotton in a hard-wearing superior quality. The Sydney model is an ideal shopping bag because of its strong twill fabric and the short handles. It is the ideal advertising medium for those who set store by sturdy fabrics and high quality. It is also suited as a local merchandising article for souvenir shops. The heavy cotton fabric makes it a special product.

The Melbourne shopping bag is a special quality product. The bag is made from 100% OEKO-TEX® certified cotton in a hard-wearing superior quality. The sturdy twill fabric and long handles make the Melbourne model ideally suited for use at commercial shows and shopping expeditions. The bag is the ideal advertising medium for products that come in tall formats. It is also suited as a local merchandising article for souvenir shops. The heavy cotton fabric makes it a special product.

Brisbane is a shopping bag of special quality. It consists of 100% OEKO-TEX® certified cotton in hard-wearing top quality. Brisbane is like the big sister of Joytex® Melbourne bag. With long handles and a strong cotton twill fabric, it is particularly suitable for heavy shopping. For really big shopping-tours, it has an additional fold-out net with a drawstring - nothing falls out of the bag, no matter how full it is. An additional side pocket sewn on the outside, also makes it attractive as a swim and leisure bag. It is also suitable as a merchandise item for souvenir shops. The heavily woven cotton fabric in twill quality and the cotton mesh makes this bag something special.

The large Santorini shopping bag has a fold on the underside and is an excellent and eco-friendly carrier bag for daily use. The bag is made from 100% OEKO-TEX® certified cotton in a hard-wearing superior quality. The Santorini model has folds at the bottom and offers a huge capacity of 25 litres. The handles of a woven material make sure that a bag full of shopping is still comfortable to carry. It is the ideal cotton advertising medium with a claim to quality. Its exceptionally heavy canvas fabric makes the bag suitable as a local merchandising article for souvenir shops. The careful finish with wide handles of a woven material and the attractive metal-eyelets make sure that the Santorini model looks good and will last for a very long time.

## 45 SANTORINI

The large Lagos shopping bag has a fold on the underside and is an excellent and eco-friendly every day bag. The bag is made from 100% OEKO-TEX® certified cotton in a hard-wearing superior quality. A very strong canvas fabric with a weight of 330 g/m<sup>2</sup> is used to produce this bag. The Lagos model has folds on the bottom and offers a huge capacity of the bag can be comfortably carried as a shoulder bag. It is the ideal cotton advertising medium with a claim to quality. Its exceptionally heavy canvas fabric makes the bag suitable as a local merchandising article for souvenir shops. The careful finish with wide handles of a woven material and the attractive metal-eyelets make sure that the Lagos model looks good and will last for a very long time.

Copenhagen is a bag with bottom and side folds. It has a very maritim look and is a real eye-catcher. It is made of heavy, durable canvas fabric. Copenhagen is suitable as a shopping bag. With the long handles it wears particularly comfortable - even over the shoulder. It is a medium sized bag and the ideal advertising medium for drugstores, pharmacies and medical supply stores. It's even perfect as merchandise article for local communities not only near by the sea. The stepped base made of RAW-Jeans is always the same color as the handles of this special two-tone bag. Coloring when wearing and dyeing when washing the bag is part of the typical character of this Indigo quality. Beware of light clothing and upholstered furniture. Only with liquid detergent cold and wash inside out.

DN

The Tokio shopping bag with side- and bottom fold is an eco-friendly bag in a trendy Jeans-Look. The bag is made from 100% OEKO-TEX® certified cotton in a hard-wearing superior quality and comes in a indigo finish. The Tokio model is a shopping bag that is comfortable to carry around, because of its long handles. Besides, it is a very strong bag. This classic among the reusable shopping bags, is suitable for all branches of trade. A special feature of this bag is the attractive and timeless jeans fabric it is made of. As trendy as showy – Tokio! Coloring when wearing and dyeing when washing the bag is part of the typical character of this Indigo quality. Beware of light clothing and upholstered furniture. Only with liquid detergent cold and wash inside out.

The Kalkutta shopping bag has folds on the sides and underside. It is an extra large carrier bag with a special mobile or money bag on the inside. Thanks to the short handles made of a woven fabric the bag can be comfortably carried as a shoulder bag. It is the ideal cotton advertising medium with a claim to quality. Its exceptionally heavy canvas fabric make the bag suitable as a local merchandising article for souvenir shops. The careful finish with wide handles of a woven material and the attractive metal-eyelets make sure that the Kalkutta model looks good and will last for a very long time.

The Kochi shopping bag has folds on the sides and underside. It is an extra large carrier bag with a special mobile or money bag on the inside. The bag is made from 100% OEKO-TEX® certified cotton in a hard-wearing superior quality. A very strong canvas fabric with a weight of 330 g/m<sup>2</sup> is used to produce this bag. The Kochi model has folds on the sides and underside and thanks to the long handles made of a woven fabric the bag can be comfortably carried as a shoulder bag. It is the ideal cotton advertising medium with a claim to quality. Its exceptionally heavy canvas fabric make the bag suitable as a local merchandising article for souvenir shops. The careful finish with wide handles of a woven material and the attractive metal-eyelets make sure that the Kochi model looks good and is perfect for shopping or a day on the beach.

Marbella is the largest of the Joytex® bags. Marbella is a big bag made of twill fabric with a bottom and side fold in comfort size. It consists of 100% OEKO-TEX® certified cotton in hard-wearing top quality. Marbella looks particularly eye-catching with the black sewn-on belts and the black base, because it frames the print motif in a dark way. The print is made on the sewn-on outer pocket. Marbella is therefore ideal for shopping and leisure. As a bath and sauna bag, as a boutique bag and for all other transport - Marbella lives up to its name and makes a glamorous appearance.

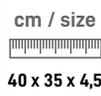

## 137 MARBELLA

<b>Material:</b>	Cotton 100% OEKO-TEX®

The Bilbao shopping bag has folds on sides and underside. The bag is made from 100% OEKO-TEX® certified cotton in a hard-wearing superior quality. A very strong canvas fabric with a weight of 330 g/m<sup>2</sup> is used to produce this bag. The Bilbao comes with a shoulder strap which makes it easy to use the bag at commercial shows and events. But this model is also suitable for use as shopping bag. It is the ideal cotton advertising medium with a claim to quality. Its exceptionally heavy canvas fabric make the bag suitable as a local merchandising article for souvenir shops. The careful finish with wide strap of a woven material and the attractive staples make sure that the Bilbao model looks good and suits for shopping, library, school or hobby.

Faro is a shoulder bag with bottom and side fold. It is made of 100% OEKO-TEX® certified Cotton in durable top quality. It is a very strong canvas with 330 g/m<sup>2</sup>. Faro has a large flap, ideal for an effective print. It has a woven shoulder strap with adjustable buckle and is therefore an ideal companion for trade fairs and events. Thanks to the particularly heavy canvas fabric, it is also well suited as a local merchandise for souvenir shops. The high-quality workmanship of this bag, with its woven shoulder strap and attractive eyelets, not only looks good, it also makes Faro a real longlife product.

## 133 FARO

Meran is a practical belt pouch that has its own belt. It consists of a strong black fabric that is 100% OEKO-TEX® certified cotton. It has a small bottom fold and thus offers enough space for money, cell phone, keys, etc. The zipper offers the possibility to protect the storage space from quick access. Meran is the ideal advertising medium for young target groups and ideally suited as merchandise for festivals, concerts and beach boutiques.

Seattle is a fashionable rolltop backpack that is closed/wrapped twice with a loop and snap fastener. Seattle is made of sturdy, black canvas fabric made of 100% OEKO-TEX® certified cotton. In addition to its large storage space, it also has a patch outer pocket with velcro, on which can be printed. The ideal companion for school, office and leisure time is the perfect advertising medium for a wide range of uses. With a strap in the middle of the two wide straps with adjustable buckles, this rolltop backpack can easily be carried on one hand or hung up.

Corfu is a classic and very trendy duffel bag. It is made of 100% OEKO-TEX® certified Cotton in durable top quality. It is a very strong canvas with 330 g/m<sup>2</sup>. Unlike the classic duffel bag, Corfu has two shoulder straps made of wide woven webbing with adjustable buckles. Because them it could be worn like a conventional backpack. Thanks to the particularly heavy canvas fabric, it is also well suited as a local merchandise for souvenir shops. The high-quality workmanship of this bag, with its drawstring and attractive eyelets, not only looks good, it also makes Corfu a true friend and travel companion.

## COTTON BASICS – NATURAL AND HARD-WEARING

The cotton bag, a classic among branded media. Previously seen as merely a practical shopping tote, in recent years it has become a well-loved accessory and even a „must have“ among certain target groups. You now see them used everywhere as a fashionable leisure accessory. Joytex® has been importing these classic bags for over 30 years and printing conventional and organic cotton bags, veggie bags, pharmacy bags, backpacks and bags with or without side gussets, in its own screen printing shop. Even for the basic range, Joytex® always uses 140g/m<sup>2</sup> OEKO-TEX 100 quality. The absolute top seller – the simple, natural-coloured cotton bag (page 38/39) – even comes in 150g/m<sup>2</sup>. Quality that pays off.

### Cotton basic - features:

- ✓ **high-quality OEKO-TEX 100 certified cotton**
- ✓ **wide range of designs in stock**
- ✓ **robust and well-made**
- ✓ **fast delivery of high volumes from Germany**
- ✓ **alternative: inexpensive production in the Far East**

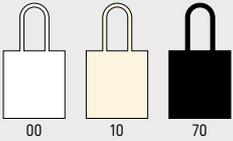

## 41 PERTH [ORGANIC]

## MADE FROM RECYCLED PET BOTTLES

The bags in the new R-PET product group look like bags made of normal, non-woven PP-material. But there's a lot more to them than that – namely, lots of old PET bottles. The empty bottles are collected, cleaned and shredded. Finally, the material is melted and processed into a non-woven fleece, which is used to make the Joytex® R-PET bags. The method is especially energy-saving, because there is no need to process oil into polymers. Joytex®'s high quality standards ensure that these bags are long-lasting, robust advertising medium for your brand.

### R-PET bags - features:

- ✓ **tear-resistant R-PET material  
100% recycled PET bottles**
- ✓ **low energy consumption  
robust and well-made**
- ✓ **also produced inexpensively  
in the Far East**

Sevilla is a medium-sized bag with bottom and side folds and long handles. It is a large-volume, reusable, lightweight, alternative made from recycled plastic bottles made from lightweight, very tear-resistant, 100% OEKO-TEX® certified premium non-woven R-PET. Sevilla is particularly suitable for environmentally conscious target groups, who only use plastics if they are made from recycled material. „Do good and talk about it“: Sevilla has a „made of PET-Bottles“ recycling logo on the outside.

tear-resistant

The Genf bag is a shoulder bag which is not unlike the classical post-man's bag. The bag consists of an exceptionally long-lasting combination of PP non-woven material on the inside and recycled Kraft paper on the outside. The folds on the sides and underside are made of a black PP non-woven material. The Genf model is of a sturdy quality and is ideal for visits to commercial shows and other events. It is the ideal bag for books and documents. This exclusive paper shoulder bag is the ideal advertising medium for the paper and printing industries and those who just love this material. It is the 'wow-effect' of the sophisticated combination of materials that makes the bag so special. In other words, a tear-resistant paper bag.

The Cologne bag is a shoulder bag with a long and soft strap and a large interior pocket. The bag consists of an exceptionally long-lasting combination of non-woven material on the inside and recycled Kraft on the outside. The Cologne model is of a solid quality and ideal for use at commercial shows, schools and work. This exclusive paper shoulder bag is the ideal advertising medium for the paper and printing industries and those who just love this material. It is also suited as a local merchandising article for souvenir shops. It is the 'wow-effect' of the sophisticated combination of materials that makes the bag so special. The bag has a velcro fastening and a pocket that holds six pens.

It is just perfect for wine merchants, liquor stores and for all who want to make a present of a good bottle of wine.

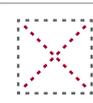

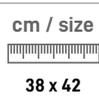

## 100% OEKO-TEX® PREMIUM NON-WOVEN – TEAR-PROOF AND DURABLE

It's hard to believe but true: Almost all of the Joytex® Premium Non-Woven bags made of polypropylene have been awarded the OEKO-TEX® 100 certificate – that's far beyond the usual quality standard of this material. The bags are completely free of harmful substances, and also tear-resistant and particularly durable. Joytex® has been printing bags made of non-woven fleece for over 30 years with great success. The printing results on the Joytex® Non-Woven are impressive and thanks to Joytex®'s experience multi-colored prints can also be made on this material. This makes these bags a very light and inexpensive advertising solution in many shapes and colors.

### Non-Woven features:

- ✓ **100% OEKO-TEX®  
Premium non-woven**
- ✓ **great price/  
performance ratio**
- ✓ **many designs in stock**
  
- ✓ **also available as far east  
production**

## FINE-KNIT JERSEY POLYESTER – WRINKLE-FREE AND TEAR RESISTANT

Our fine-knit jersey polyester makes an excellent base for sublimation prints – a product of choice for printers and finishers. These bags are knitted rather than woven. The particularly fine, light polyester threads can be made into a high volume fabric with a minimum of materials. This makes the bags particularly light and they still have a great look and feel. Another advantage of this material is that it's almost wrinkle-free. This means that even folding bags promise an optimum effect for your branding on a smooth surface. Due to their low polyester content compared to the material requirements for other weave types and the high reusability of the bags, they are a good alternative to other materials, even when considering the environment.

### **Polyester bags - features:**

- ✓ **wrinkle-free**
- ✓ **ideal for sublimation prints**
- ✓ **fast-drying knit fabric**
- ✓ **particularly light and tear-resistant**
- ✓ **ideal for folding bags**

The flat and folding Venice shopping bag with its extremely smooth surface is the eco-friendly alternative to plastic carrier bags. The bag is made of the light-weight and crease-resistant jersey polyester. The Verdun model is a shopping bag that is comfortable to carry around because of its short handles. Besides, it is a very strong bag. This folding bag is the ideal advertising medium for supermarkets and all other shops that plan to present their customers with a handy and long-lasting shopping bag. With a minimum of effort the bag can be folded away in the triangular pocket that is sewn on to it. A handy shopper for handbag or backpack.

The flat and capacious Verdun shopping bag with its extremely smooth surface is the eco-friendly alternative to plastic carrier bags. The Verdun model is a shopping bag that is comfortable to carry around because of its short handles. Besides, it is a very strong bag. This classic among the reusable shopping bags is suitable for all branches of trade. The material of polyester microfibres is very agreeable to the touch and is also suited for printing purposes.

crease-resistant

The flat and capacious Dijon shopping bag with its extremely smooth surface is the eco-friendly alternative to plastic carrier bags. The bag is made of the light-weight and crease-resistant jersey polyester. The Dijon model is especially suited for use at commercial shows and as a shopping bag as its long handles make it possible to carry it as a shoulder bag. This classic among the reusable shopping bags is suitable for all branches of trade. The finely knitted polyester microfibrils feel very agreeable and are also suited for printing purposes.

The Bologna bag is a classical backpack. The bag is made of the light-weight and crease-resistant jersey polyester. The Bologna model is a light-weight backpack for shopping, school and sports. It is the qualitatively perfect advertising medium for supermarkets, sports clubs and shops. It is also suited as a local merchandising article for souvenir shops. The finely knitted polyester microfibres feel very pleasant and are also suited for printing purposes.

**crease-resistant**

The Arnhem bag is the classical sports bag in the shape of a backpack, which comes complete with safety reflectors. It is made of a light-weight and crease-resistant polyester and comes in a range of neon colours. The Arnhem model is a light-weight backpack for shopping, school and sports. It is the perfect advertising medium for supermarkets, sports clubs and shops. The bag is also of interest for bike shops that care for their customers' safety in the dark. The reflectors on the sides of the bag help to spot the user on the road.

### CHOOSE SUSTAINABLE PRODUCTION AND DESIGN...

Whether or not a branded bag is sustainable depends on how often it is used. What's important is the quality. So, at Joytex®, we place special emphasis on high-quality materials and processes.

A creative bag design significantly increases the wearability of a bag. A creative design can vary the usability even of bags that aren't your typical shopping bag – such as backpacks and large bags that are especially suitable for school, leisure and sporting use.

Here are a few simple ideas that achieve sustainable added value with backpack and beach bag examples.

#### Design on the front and back:

#### Integration of decorative design elements with advertising logo:

**IT'S YOUR CHOICE!**

Choose between a delivery time of approx. 14 days after release for printing (print Germany) - or, with a delivery time of min. 12 weeks (from an order quantity of 1,000 pieces) after approval from the Far East.

**If you have time – you save money!**

In addition, we are a real specialist in the creation of custom-made products of any kind of bags.

**Basic colours – non-woven**
